

This petition has a balanced that is not only equitable, but fair. It allows for one that can pass the written elements to pass with the privlidges of that element, and those that need extra credit the option to use the Morse to gain the requires extra credit. I fully agree there is a need to expand the technical part of the test. I agree that a minimum tenior must be met prior to acquiring an Extra class, but do not agree that anyone should have wait to become a General.
